TACT – The Association of Corporate Trustees approves Intertrust as a trustee member

TACT - The Association of Corporate Trustees is pleased to announce that Intertrust was recently approved as a trustee member.

Intertrust's specialised team has a dedicated ring-fenced business which acts as trustee on a variety of transactions, both in the public sphere and on niche private deals involving alternative finance providers. They're well known for their proactive approach, efficient completion and turnaround of documents and full independence as a non-bank trustee. In 2018 they were the number 1 trustee in public European ABS transactions by volume.

TACT – The Association of Corporate Trustees is a recognised professional body of the UK corporate trustee sector which aspires to educate and inform, track and influence developments, inform and engage members and advance knowledge and practice of quality trusteeship. Founded in 1974, TACT members include trust companies owned by banks and major financial institutions, as well as those set up by firms of accountants, lawyers and pensions professionals.

The Chairman of the Loan Capital & Capital Markets Committee of TACT, Helena Giles said "It is our pleasure to welcome Intertrust as a Trustee member of TACT. Having known the Team at Intertrust for many years, I know they are looking forward to being an active member of TACT and they have many interesting ideas they wish to share with the Loan Capital & Capital Markets Committee. Welcome Intertrust"

The Chief Executive of TACT, Scott Clayton said "I am delighted that Intertrust has joined TACT and their membership enhances the list of market leading organisations enjoying the benefits that TACT membership brings."

Intertrust's Head of Capital Markets, London, Helena Whitaker said "We are delighted to now be a professional member of the association. We look forward to actively engaging and participating with the TACT community and welcome the recent proactive initiatives put forward by TACT for the benefit of the trust and agency providers at large."
